I am a **Human-Computer Interaction (HCI)** researcher, who designs and evaluates human-AI collaborative tools that enhance productivity, creativity, and accessibility. As one of only eight worldwide recipients of the 2023 HCI **Google PhD Fellowship**, and with over \$400k in secured funding, I demonstrate the global impact of my research and success in obtaining highly competitive funding.

Academic Employment

York University

ASSISTANT PROFESSOR

[Toronto, ON, CA](#)

July 2025 - present

- Department of Electrical Engineering and Computer Science, Lassonde School of Engineering

Education

Rochester Institute of Technology

PHD IN COMPUTING AND INFORMATION SCIENCES

[Rochester, NY, US](#)

Aug 2020 - May 2025

- Thesis Title: *Crafting Human-AI Collaborative Analysis for Usability Evaluations*
- Committee: Kristen Shinohara (advisor), Mingming Fan, Cecilia Alm, Garreth Tigwell, and Jian Zhao
- Received RIT's inaugural **Outstanding Graduate Student Award** 🏆

University of Waterloo

BASC IN BIOMEDICAL ENGINEERING

[Waterloo, ON, CA](#)

Sept 2015 - Apr 2020

- Capstone Topic: *Design and Development of a Behaviour Tracking and Trigger Analysis Tool for People with Dementia*
- Graduated with Dean's Honour List recognition, having completed six internships

Research Experience

Rochester Institute of Technology

GRADUATE RESEARCH ASSISTANT

[Rochester, NY, US](#)

Aug 2020 - May 2025

- Conducted research in HCI, AI, and accessibility, focusing on human-AI collaborative tools that improve usability analysis
- Mentored and coordinated research assistants and students, overseeing their contributions across various projects

Autodesk, HCI & Visualization Research Group

RESEARCH INTERN

[Toronto, ON, CA](#)

May 2024 - Sept 2024

- Led a mixed-methods research project on integrating generative AI into 3D computer-aided design
- Delivered high-impact presentations, including a direct presentation to the CEO and VP of Research at Autodesk, effectively communicating key research insights

Meta, Reality Labs

UX RESEARCH INTERN

[Seattle, WA, US](#)

May 2023 - Aug 2023

- Led a 20-participant interview study on VR headset usability, collaborating efficiently with external research vendors
- Effectively communicated research findings to diverse product stakeholders, fostering a deep understanding of user needs and perspectives to guide product development

Meta, Reality Labs

UX RESEARCH INTERN

[Burlingame, CA, US](#)

May 2022 - Aug 2022

- Designed and executed a user study with 30 participants to evaluate audio performance, providing recommendations for the optimal microphone configuration on the Ray-Ban | Meta smart glasses
- Presented study findings to over 100 stakeholders, including researchers, engineers, and cross-functional teams

- Contributed to the DARPA Automating Scientific Knowledge Extraction (ASKE) program
- Designed wireframes and implemented new features for a visual analytics system, enabling multi-scale graph analysis and facilitating knowledge discovery [P.1]

Publications

Note: In HCI, conference proceedings are the primary way to publish research. Conference papers undergo peer review, typically with 2-3 external reviewers and 2 associate chair reviewers. Acceptance rates for the main HCI conferences range between 20% and 25%, making them highly competitive.

*Since joining York, I have published 3 journal articles, 3 conference papers, and 3 extended abstracts, workshop, or poster papers. Underline indicates students I directly supervise; * indicates equal contribution.*
